

# Conston Single Motor Skylight Shades

For small to medium sized applications our unique Conston single motor system provides an easy to install, self contained lower tension housing which works to pull tension against a motorized fabric roller keeping the fabric taut.

Maximum Dimensions: Up to 64 sq. ft. with a single system.

Concealed hardware for a flush appearance.

Available with the majority of our fabric offering.

Exposed metal is offered in White, Bronze, Black & Anodized. Custom powder coating is also available.

Controls: Goposa or Somfy STD wired, RTS wireless or ILT intelligent wired systems. Remote controls, wall switches, sun sensors and building automation systems are all options.
